

Hi from Orlando,

Last summer we were blessed to have Amanda join our staff. She was placed with us (theLAB: the media solutions team), but continues to gather her initial team of partners to team with her so she can report to Orlando. She very nicely wrote about our summer mission opportunities. I wanted to share her letter with you. Lisa and I especially liked that she quoted a student who was from Argentina, which was where Lisa and I were assigned to go earlier this year, but needed to pull back to work on our funding. I hope you enjoy Amanda's notes.

Dear Friend—

School's out! Exams are done! Summer is officially here for college students across the country. But for many involved with Campus Crusade for Christ, things aren't slowing down quite yet. *Summer Projects* are mission trips which offer students the opportunity to take the good news of forgiveness in Jesus Christ to virtually anywhere in the world with Campus Crusade for Christ so ultimately everyone will know someone who truly follows Jesus. As you're reading this letter, students are taking steps of faith, overcoming fear, and using their prized summer vacation to travel all over the world...

Campus Crusade for Christ is offering over 150 unique *Summer Project* opportunities, some lasting as long as 10 weeks! These projects include cities in Germany, Bosnia, Lebanon, Argentina, Sweden, New York City, Portugal, Russia, Greece and many others! Students spend the majority of their spring semester preparing for these trips by praying, seeking the Lord over their decision, and raising funds—all before they leave in May. To find out more about Summer Projects, visit: gosummerproject.com

my story.

HIS WORK

TYPICAL DAY ON A SUMMER PROJECT

- 8A–9A Breakfast & Quiet Time
- 9A–12P Language Class (varies greatly by location)
- 12P–1P Lunch
- 1P–5P On Campus Meeting New People
- 5P–7P Dinner & Free Time
- 7P–9P Outreach, Social, Training Time, or Bible Study (depending on day)

The Lord wanted to use Americans in *my* life...
He's still using them!
But He's using Argentines now, because He's using *me*.
—TESTIMONY FROM ARGENTINE STUDENT

The adventures that these students are on could be the first tug at their heart by God and the beginning of a lifetime passion for missions. Regardless of how these summer projects affect the students that go and regardless of how they got there, we're confident that God is working mightily through them. He's there in these hardened places, bringing others into a relationship with Himself! Please pray for students who have committed to these summer project teams, that they would not be fearful, but would boldly proclaim the Gospel in these most spiritually dark places. Thanks for your prayers and your support!

say hi.
